- ✓ Eden is home! She has been diagnosed with a very rare auto immune disease called Hashimoto Encephalopathy. I have attached a link below which gives a bit of information about it. Eden is still on a high dosage of steroids and will be until the new year, however will be coming to join in with a few of the Christmas events over the next couple of weeks.

- ✓ We need a Santa!- unfortunately the one I had lined up is behind with his presents. If you can think of anyone that would be available on Thursday 21st afternoon or Friday 22nd afternoon (Christmas party days) to deliver presents to each class (they will be with me throughout) please could you let me know.

Shout Outs

Please Remember
